

HANNAFORD DRY SEASON PROGRAM – 2024

To receive **PROTECTION** on your crop input investment under the Hannaford Dry Season Program, simply:

- 1 Purchase, and have applied, Hannaford seed treatment products from a Hannaford franchisee before 15 March 2024 – a minimum of 10L Sylas-ST® + at least one other Hannaford seed treatment – either Rancona® Dimension, Vitaflo® C, Rancona® C, Foliarflo® C or Zincflo® Plus.*
- 2 Complete the online enrolment form by 31 March 2024 at <https://hannafords.com/boost.html>
- 3 If a Decile 2 period occurs between 1 April and 30 June 2024, the customer invoiced value of Hannaford seed treatment products* will be credited.

SYLAS-ST®

OPTIMISE SEED ESTABLISHMENT

SYLAS® is a super-concentrated biological seed treatment that stimulates & supports seed germination & root growth.

Increased root growth further exacerbates improved uptake of water & nutrients, enabling healthy germination & crop establishment.

ZINCFLO® PLUS

HEALTHY SEEDLING GROWTH

RANCONA® DIMENSION

VITAFLO® C

RANCONA® C

FOLIARFLO® C

PROTECT AGAINST YIELD
ROBBING DISEASES

Worried about
planting with a
dry start?

We've got you
covered!

Enrolment in the
Hannaford Dry Season
Program provides you
with payment if your
crop doesn't get the
rain it needs[^]

No damage assessments
and No claims.

The Hannaford Dry Season Program is designed to help compensate Australian broadacre farmers for the cost of inputs during a dry establishment period.
